

KING CITY UNION SCHOOL DISTRICT GOALS 2007-2010

MISSION STATEMENT

“The King City Union School District will provide the opportunity for each student to reach his/her maximum potential through academic preparation and character development. Maintaining high expectations for students and staff supports our commitment to excellence.”

VISION STATEMENT

“Our vision is to create effective and supportive schools with students and staff who are committed to learning.”

VALUES & BELIEFS

The King City Union School District embraces the following values and beliefs as the District works toward its Mission:

- **Our students’ needs and interests are top priority**
- **All students can learn and progress toward mastery of the state’s learning standards**
- **Students, parents and staff are partners in student growth and achievement**
- **Teamwork based on open and clear communication is vital to an effective learning environment**
- **Health & Safety of Students**
- **Mastery of Content Standards (K-8)**
 - **Literacy/Reading**
 - **Math**
 - **English Language Development**
- **Home/School Relations**
- **Technology**
- **Facilities & Maintenance**
- **Continued K-12 Articulation and Collaboration**
- **Compliance with State and Federal Guidelines**
- **Sustained Fiscal Solvency**

- **Health and Safety of Students**

The King City Public Schools will foster the physical and emotional health of its students so they can make positive and healthy decision in their lives. The schools will provide a safe environment at school for students and staff so that connectedness to school and student learning are maximized.

- **Mastery of Content Standards (K-12)**

Through the use of state-adopted, research-based curriculum, best teaching practices, frequent assessment and monitoring student progress, the King City Public Schools will strive for academic excellence and continual student growth toward the mastery of content standards in all core content areas.

- **Literacy/Reading**

The King City Public Schools believes that reading is the fundamental academic skill for all students and that resources and energy must be devoted to this area to sufficiently insure that every student makes at least one grade level growth each calendar year.

- **Mathematics**

The King City Public Schools recognizes that mathematics is a fundamental academic skill that is necessary for success in many areas of life, so resources and energy will be devoted to help students be successful in math courses.

- **English Language Development**

The King City Public School will provide ELD instruction to help every English learner acquire English language proficiency as soon as possible to more successfully access the breadth of the curriculum.

- **Home-School Relations**

The King City Public Schools will work to establish positive relationships with the parents of students by frequent communication with the home and opportunities for parental involvement.

- **Technology**

The King City Public Schools will continue to provide and fully align technology resources to serve staff and students in ways that will maximize student growth.

- **Facilities and Maintenance**

The King City Public Schools will use careful planning and creative thinking to make the best use of their building inventories for student success as the community grows and the student population increases. They will promote pride in our schools and elevate student success by creating a positive learning environment with well-maintained buildings and grounds.

- **Continued K-12 Articulation and Collaboration**

The King City Public Schools will collaborate to articulate academic goals providing a seamless learning process for our students.

- **Compliance with State and Federal Guidelines**

- **Sustained Fiscal Solvency**
